

Give your skills
the stage they deserve

Two brands - Trufrost and Butler team up to provide a comprehensive bouquet of products designed to provide a cutting edge to commercial kitchens, cloud kitchens, industrial canteens and QSRs. Products that will cook and cool and let you breathe easy by their tireless performance, extraordinary features and dependable service.

This catalogue however covers only our refrigeration products & solutions marketed under the Trufrost brand, and is dedicated to the professional kitchen planners, facilities planners and a master class of chefs, who through their knowledge, skill, experience, and sheer labour of love, stimulate our senses and bring such joy and happiness into our lives.

Bespoke design

While you may access our individual category wise catalogues by clicking on the QR codes in the facing section, this refrigeration catalogue goes beyond the generally available cookie cutter options for commercial refrigeration and strives to broaden our offering for large kitchen projects that may need some level of customisation. We know that no two kitchens are the same, so our products are designed to adapt to your needs but only to the extent that there is no compromise on the reliability of the core product.

Front-of-house & Back-of-house

Our front-of-house products are specially designed to provide that 'oomph' and X-factor to your ambience without any compromise on quality & reliability. Our products look great and perform well, either front-of-house or back-of-house. Even for back-of-house products, our design philosophy is that functionality does not have to be dull.

Enhancing functionality without any compromise on reliability

- Option of advanced and elegant touch controls
- Energy rated options available
- Stainless Steel 304 inside & outside
- Stainless Steel 304 inside & SS 201 outside
- Option of lockable, heavy-duty castors or adjustable legs
- Glass door option on some models
- Option of GN or EN compatible models
- Provision of drawers in some reach-in cabinet models
- Slim Reach-In Cabinets available for space saving

Energy Rating

Castors

Adjustable legs

Enhancing functionality without any compromise on reliability (refrigerated counters)

- Multiple top surface options
 - Stainless steel
 - Marble
- Set of 2 or 3 drawers instead of doors
- Option of stainless steel shelves
- Compressor options on left or right side
- Option of built-in sink
- Option of back splash & side splash
- Option of overhead shelves
- Pass through units

Overhead shelves

Compressor placement options

Compressor on left

Compressor on right

Compressor at bottom

Remote compressor

Refrigerated counters with variety of depths

Front-of-House

From captivating displays for cakes & confectionary, to inviting wine walls, or an impressive array of induction systems, stunning displays for ice cream, gelato, sushi or tapas, and Italian coffee machines that create a multi-sensory impact on your guests, we have covered everything and more.

Back-of-House

Our back-of-house equipment pivots around functionality, reliability, ruggedness but without being boring. Backed by contemporary technology, ergonomics and energy efficiency, we use eco friendly refrigerants. For instance, rounded corners, panels with camlocks, slim ceiling mounted evaporators and conformity to stringent hospitality specifications are hallmark of our coldroom design. Our professional stainless steel refrigerators offer energy rated options and ice machines are best in class.

GN Cabinets (100 mm Insulation)

New design air conduct offers better air cycle for more uniform temperature

Stamping side panel instead of shelf support easy for cleaning
Max with 15 longer shelves or pans GN2/1

With bottom shelf gives better air cycle

LED light for better energy efficiency

Super thick insulation 100mm.

Automatic fan cut-off system reduces cool air loss and energy consumption

Newest high efficiency variable speed compressor helps save energy

UGN650TN

UGN650TNM

UGN650BT

UGN650BTM

Features

- ◆ HC refrigerant and foam
- ◆ Electronic thermostat and digital LED temperature display for accurate control and easy reading
- ◆ Auto defrosting and auto evaporation of condensation water
- ◆ Magnetic gasket can be replaced without any tools
- ◆ Insulation 100 mm thickness for better energy efficiency
- ◆ Self-closing door
- ◆ Complete structure interior AISI 304 & exterior in stainless steel AISI 430 with round internal edges for easy cleaning

Options

- ◆ Legs
- ◆ Stainless steel shelf
- ◆ Defrost by heating element (for TN)

Technical Specifications

Model	Ext. Dimension WxDxH (mm)	Int. Dimension WxDxH (mm)	Capacity (L)	Temperature (°C)	Energy level	Shelf	Power Supply

A refrigerated table
for every need

GN1100TN / GN1100BT

GN2100TN / GN2100BT

GN3100TN / GN3100BT

GN4100TN / GN4100BT

Features

- ◆ HC free refrigerant and foam
- ◆ Electronic thermostat and digital LED temperature display for accurate control and easy reading
- ◆ Ventilated refrigeration compartment gives a better air circulation
- ◆ Auto defrosting and auto evaporation of condensation water
- ◆ Magnetic gasket can be replaced without any tools
- ◆ Insulation 60 mm thickness
- ◆ Self-closing door
- ◆ Heating element conceal in door frame to eliminate any condensation
- ◆ Complete structure interior & exterior in stainless steel AISI 304 with round internal edges for easy cleaning
- ◆ Design to accommodate 1 number of GN 1/1 pan size

Options

- ◆ Casters
- ◆ Stainless steel shelf
- ◆ Set drawers instead of doors
- ◆ Lamp

U-GN2X2/1

U-GN2X2/1-4D

U-GN3X2/1

U-GN3X2/1-6D

Features

- ◆ HC free refrigerant and foam
- ◆ Electronic thermostat and digital LED temperature display for accurate control and easy reading
- ◆ Ventilated refrigeration compartment gives a better air circulation
- ◆ Auto defrosting and auto evaporation of condensation water
- ◆ Magnetic gasket can be replaced without any tools
- ◆ Insulation 60 mm thickness
- ◆ Self-closing door
- ◆ Heating element conceal in door frame to eliminate any condensation
- ◆ Complete structure interior & exterior in stainless steel AISI 304 with round internal edges for easy cleaning
- ◆ Shelf and shelf support are designed to accommodate 1 number of GN 2/1 in pan size

Options

- ◆ Casters

CBR2-3R

Features

- ◆ HC free refrigerant and foam
- ◆ User friendly controls with LED temperature display
- ◆ Magnetic gaskets can be replaced without any tools
- ◆ AISI 304 stainless steel framework construction
- ◆ Switch drawer temperature from chiller to freezer at the touch of a button
- ◆ GN1/1 150mm deep pan capacity maximises available storage space
- ◆ Climate Class 5(43°C ambient)
- ◆ CBR2-2/CBR2-3 with 2 cooling units

Features

- ◆ HC refrigerant and foam
- ◆ Ventilated refrigeration compartment.
- ◆ Touch Screen for easy operation and reading.
- ◆ 75mm thickness insulation for excellent thermal efficiency.
- ◆ Self closing doors with easy to clean and replace magnetic balloon gasket.
- ◆ Complete structure interior & exterior in stainless steel AISI 304 with round internal edges for easy cleaning
- ◆ Choice of models from 3 set GN1/1(400x600) trays to 14 set GN1/1(400x600)
- ◆ Special insert probe feels the temperature in the heart of the product.
- ◆ Electric door mullion heater replaceable.
- ◆ Danfoss refrigeration components.
- ◆ Aspera or Danfoss compressor.
- ◆ EBM fan
- ◆ Customer friendly touch screen controller easy for reading and operating

Easy To Use

Blast Chillers +70°C to +3°C

The Blast Chilling cycle, the product temperature drops from +70°C to +3°C in 90 minutes. The transition between +65°C and +10°C (ideal climate for the proliferation of bacterial), so fast as to prevent any generation.

The Foodstuff can be kept for 8 days in normally chiller.

Shock Freezers +70°C to -18°C

The maximum storage is achieved through the rapid production of cold to allow the production of microcrystals that optimally preserve the cells of the foodstuff. The Shock Freezing drops the temperature from +70°C to -18°C in a maximum time of 240 minutes.

The food is quickly frozen and then be kept for months in normally freezer.

Drop-in Frost Tops

The Trufrost Drop-In Frost Tops are specially designed to efficiently hold fast moving, pre-chilled food products such as grab & go menu items, trays of appetizers and cold beverages at optimum serving temperature and provide an easy, self-serve access. The display surface fits flush with the countertop to limit the effect of ambient temperature on the display area and to help maintain a pleasing, full frost view. For best performance, stainless steel pans are recommended for placement on the Frost Top.

Display Cases for Coffee & Cake Shops

Irrespective of whether you are a dedicated cake shop, patisserie or a coffee shop, the most interactive area you would have is an inviting display of confectionery and savouries. Trufrost has a whole array of stylish and contemporary confectionery showcases that would do any café & cake shop proud. For a café application, these display cases perfectly complement the Butler Coffee Machines to create a holistic customer experience.

Why Trufrost confectionery showcases are miles ahead?

Help you save on food wastage:

If the display in your showcases looks anything like the showcase shown on the top right, it is time you looked for an upgrade to Trufrost. Our display cases come with an advanced, double tempered and heated front glass that enhances visibility and prevents unhygienic condensation as would be experienced in conventional display cases. This, coupled with a reliable ventilated refrigeration system and an auto defrost ensures uniform cooling which means that your food stuff – be it the Bengali mithais or exotic cheesecakes, can stay fresh, longer.

Aesthetics:

Trufrost display cases come in an elegant combination of black glass & stainless steel and contemporary LED lighting under each shelf that enhances the display giving a very classy, premium and an international feel to the ambience.

Conventional Display

Trufrost Display

Flat Glass Showcases - Premia series

Trufrost offers a variety of showcases that are specially designed to captivate your customers. The side and front glass is clad in chic, Italian style black lacquer border and the base is specially crafted in black titanium finish stainless steel to give a premium look to your store ambience. These stunning showcases come with an advanced, double tempered and heated front glass that enhances visibility and prevents unhygienic condensation as would be experienced in conventional display cases. This, coupled with a reliable ventilated refrigeration system and an auto defrost ensures uniform cooling. They come with elegant LED lighting under each shelf for that added oomph.

Ice cream & Gelato Scooping Displays

These stunning displays for ice cream & gelato can be used in different ways – as countertops or intelligently built-in to the counter to merge with your dessert buffet spread. You can choose between 3 models that are draped in elegant curved glass and built on a stainless steel base that houses the refrigeration system and have a digital temperature indicator. The DTF-4 comes with 4 x 5L pans. However, you have the flexibility to display more flavours of ice cream or gelato by using GN 1/6 pans (not supplied with the machine). The 2 Wow Gelato models come with with 6 x GN1/3 and 7 x GN1/3 pans respectively.

Soft Serve Freezers

With Trufrost Soft Serve Freezers it is easy to make soft ice cream and frozen yogurt. Just add the pre-mix from your chosen dairy or premix supplier, freeze it down and in few minutes you are ready to serve. You can choose between a single flavour model and two dual flavour twin twist models – one which is a countertop freezer and the other a floor standing freezer.

Solo

Tom & Jerry

2 Plus 1

Trufrost Wine Coolers

Wines develop their full flavour when they are stored in the right conditions and served at the right temperature. Trufrost wine coolers ensure that. They create the perfect conditions for optimal storage of all types of wines – be it red, white or sparkling. You can choose among 4 different models with single, double and three temperature zone options.

Recommended serving temperatures for different wines

Wine should always be enjoyed at the right temperature. As a general rule, red wine is best served at a temperature between 12°C and 18°C, depending on the origin, grape and year. White wine is best served between 8°C and 12°C. Champagne and fruity dessert wine should be served ice cold, between 5°C and 7°C.

White wines
8°C to 12°C

Red wines
12°C to 18°C

Sparkling wines
5°C to 7°C

Built-in

W 101 TZ

These elegant wine coolers come with 3 separate compartments for your reds, whites and champagnes and can store up to 133 bottles and 101 bottles of 0.75 litres respectively. Both models can be used as built-in or on a standalone basis. W 101 TZ also comes with changing LED lights to lend a touch of oomph to your bar.

Built-in

Eiffel Tower

Arguably the slimmest and tall wine cooler that is ideal for a large variety of wine collection with two separate compartments for your reds and whites that can store up to 54 bottles of 0.75 litres. The Eiffel Tower also comes with changing LED lights to lend a touch of oomph to your bar. It can be used as built-in or on a standalone basis.

Built-in

W 30 DZ (New)

These dual temperature zone cabinets come with two separate compartments for your reds and whites that can store up to 30 bottles of 0.75 litres - 15 bottles in each compartment. It can be used as built-in or on a standalone basis.

Standalone

W-19 SZ

These single temperature zone wine cabinets can be set at a mid-point temperature so as to cater to the storage needs of different wines and can store up to 19 and 18 bottles respectively. These are available only as a standalone wine coolers and do not have a built-in feature.

Modular Wine Walls

Trufrost Wine Coolers have a unique 'built-in' feature and allow one unit to be placed next to the other to create a modular, expandable wine wall. This eclectic arrangement can transform your wine collection into a beautiful and stunning focal point. Each of these wine coolers also come with segregated temperature zones for optimally storing your red, white and sparkling wines.

Customized Wine Walls

Customized Wine Walls

Trufrost customised wine walls provide a conditioned area for a surprisingly large number of bottles – without encroaching greatly on your floor space. They add impact and drama to your bar whilst protecting and showcasing your vintage collection. They are usually fitted with glass doors, combined with internal reflective finishes, backlighting and spotlighting to highlight the wines.

Grab & Go Plug-in Multideck Chillers

The grab & go open multideck chillers from Trufrost offer spectacular display of packaged beverages, sandwiches, confectionery and more. You can choose between 2 models that come with elegant looks with auto-defrost and drainage, LED lighting, night curtain and adjustable shelves.

Key Features

- ◆ Digital controller
- ◆ Finned evaporator
- ◆ Automatic defrost
- ◆ LED light with night curtain
- ◆ Adjustable shelves with price label setting
- ◆ Automatic drain water

GG-700

PMD-1310

Key Features

- ◆ High efficiency and balanced refrigeration system
- ◆ LED lighting in each shelf, model PMD 1310 with daylight white
- ◆ Optimised shelf depth enables more effective displayable volume
- ◆ Night curtain minimizes energy loss
- ◆ Off-cycle defrost reduces the energy consumption
- ◆ Eco friendly R404a refrigerant

Ice Machines

Trufrost Ice Machines are built around the Trufrost brand promise: best-in-class manufacturing, a wide variety of ice production & storage capacities and above all, reliability. Trufrost Ice Cube Machines and Flake Ice Machines come in capacities ranging from 18 kg to 1000 kg per day and are ideal for use in hotels, restaurants, fast food outlets, bars, coffee shops, clubs, convenience stores, healthcare applications and more.

Trufrost - The Smart Ice Machine

Trufrost ice machines come with a unique self-monitoring feature. The indicator lights in the control panel alert you when it is time to perform normal maintenance or call for service before it becomes an emergency. No wonder, Trufrost is today's most reliable and fool-proof ice system on the market.

Ice Makers

Trufrost Ice Machines present the optimal options for bars, coffee shops and restaurant applications in hotels. Ice machines with self-contained bins can even be placed under the counter and are available in ice production capacities ranging from 25 to 95 kg per day. The modular ice machines come with separate insulated bins and are available in ice production capacities ranging from 207 to 985 kg per day.

Dice

- ❖ Large cube ice: 28*28*23mm, 15g
- ❖ Cleanest cube ice in the world
- ❖ Crystal clear ice cube
- ❖ Good hardness

Available in models:

IC-35BWA, IC-50BWA, IC-100, IC-220, IC-300, IC-455, IC-950

Bullet Ice

- ❖ Bullet ice size: 38*30*13mm, 12g
- ❖ Not sticky
- ❖ Good hardness
- ❖ Center temperature -10°C

Available in models:

IC-18BWA

Irregular Small Granular Flakes

- ❖ Irregular granular ice
- ❖ Soft taste, chewable
- ❖ Center temperature -5°C
- ❖ Dry and Small, Easy to shape

Available in models:

IF-20, IF-50, IF-70, IF-120, IF-200

Flake Ice

- ❖ Thickness of flake ice 1.5mm~2mm
- ❖ Residual water content 2%
- ❖ Temperature of flake ice: -6°C~-12°C
- ❖ 3 minutes quick ice making

Available in models:

IF-300, IF-500, IF-1000, IF-1500, IF-2000, IF-2500

The art & science of **food preservation**

Team Trufrost has an expertise in design, supply, installation and after-service for your coldroom needs. Having worked extensively in the cold chain industry for over 3 decades, we've devoted ourselves to creating products and solutions that are extremely dependable. Our team has done extensive work with leading brands like Accor, Hilton, Marriott, Taj Hotels, Subway, Sanofi, Johnson & Johnson, Ranbaxy, Dinshaw's, Radisson, Westin, Park Plaza, Haldiram, Ramada, Amul, ITC, Oberoi, Shantha Biotechnics, Radha Regent, Cisco, Nilgiris and many more names.

The Coldroom Experts

Team Trufrost has an expertise in design, supply, installation and after-service for your coldroom needs. Having worked extensively in the cold chain industry for over 3 decades, we've devoted ourselves to creating products and solutions that are extremely dependable. Our team has done extensive work with leading brands like Google, Bahrain International Airport, Hyatt, Hilton, Marriott, Taj Hotels, Leela, Sanofi, Johnson & Johnson, Ranbaxy, Dinshaw's, Radisson, Westin, IBIS, Haldiram, Curefit, Ramada, ITC, Oberoi, Cisco and many more names.

Walk-in Coldrooms

We specialize in preservation & storage of products ranging from hospitality, frozen foods, fresh produce, dairy products, beverages, to medicines & vaccinations and more. Be it small walk-in coolers & freezers, or large refrigerated warehouses, Trufrost Coldrooms are easy to install, use, and maintain, keeping you up and running from the very start.

Key Features - Trufrost Coldrooms

Cam Locking & Gaskets

Our camlocks ensure strong, perfect alignment of all joints. Food-grade PVC gaskets make them neat & leak-proof and are a superior replacement of silicon sealants.

Rounded Corners

Trufrost gives you the option of rounded corner and T-joint on wall to wall, wall to ceiling (only imported) and wall to floor sections that enables easy cleaning of corners and utmost hygiene in your cold room.

Inside & Outside Ramp

Site conditions are often not perfect but you may still need to move in and out of cold rooms frequently. Trufrost custom designed ramps ensure that you cart out your foodstuff on trolleys, unhindered.

Custom Built Panels

Trufrost PUF Panels can be made to suit your layout design and site conditions. Our sizes are flexible and use L, T and + shape panels to ensure the cold rooms are structurally strong, rivet-free and hygienic.

Sliding Doors

Perfect solution for tight alleys but a wider opening requirement. Trufrost offers heavy duty sliding doors with highly durable, European accessories.

Shelving System

Trufrost offers shelving for cold rooms with option of SS304 or SS201. We offer you optimal storage system to maximise space utilisation in a coldroom to suit different budgets.

Control Panel (with I.O.T.)

Our control panels are designed to maximise the performance of all types of refrigeration systems. Optional features of remote monitoring and BMS compatibility are available.

LED lighting (optional)

Energy saving LED lighting options designed for damp, wet, walk-in coolers or freezers applications are available from Trufrost. We also offer IP65 lighting.

Panel Finishes

Trufrost offers a wide choice of panel finishes to suit any application. We can help you choose the right sheet thickness for each finish depending upon your need.

Wall Drain System

Contemporary ALTRO Safety Floor finish for wet application for premium kitchens

Kota Stone / Tiled Floor finish for wet & rough application for all types of kitchens and processing halls.

Aluminium Chequered 1.2 to 3.0 mm for Pharma, Ice Cream and any water free applications

Galvanized Sheet. 0.5/0.6/ 0.8/1.0/1.2/1.5 mm for dry applications

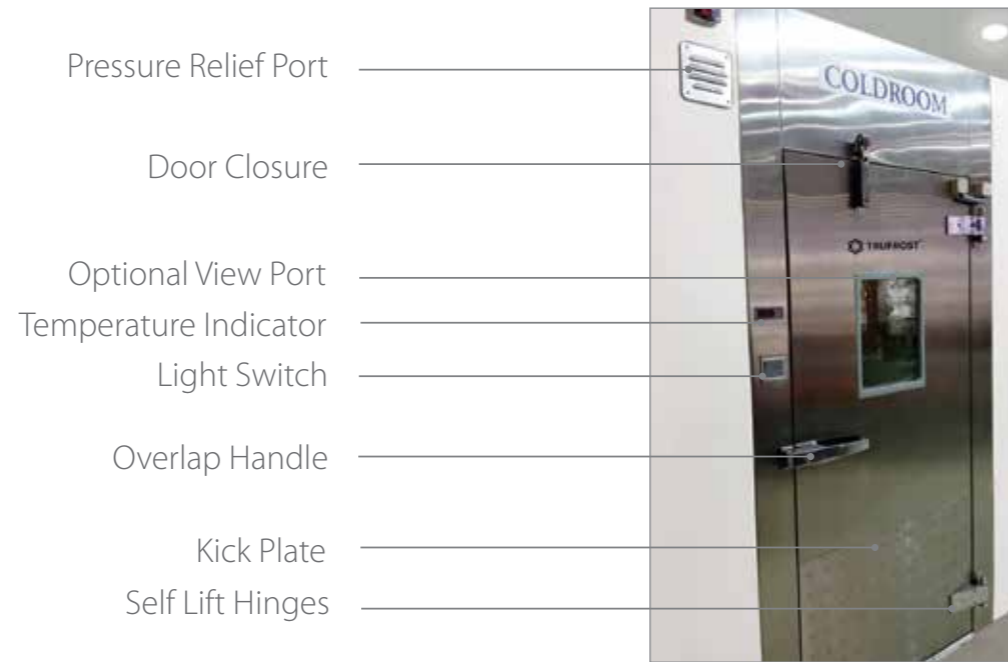

S.S. Dimple plates 0.8 to 2.0 mm for all dry type special applications

Floor Finishes

Although often overlooked, coldroom floors play a vital part in ensuring hassle free operation and maintaining a consistent temperature. Trufrost offers a wide choice of floor types to suit any application.

Flush door with accessories

Variety of doors & accessories options

- ◆ Hinge Doors
- ◆ Sliding Doors
- ◆ High Speed Roll-up Doors
- ◆ Flip-flap Doors
- ◆ Sectional Doors
- ◆ Service Doors
- ◆ Dock Seal
- ◆ Dock Levelers

Evaporators

Trufrost is known for high quality evaporator units suited to site requirements, using Sim or low profile, with low energy fans, where available.

Slim

This is a long, slim, compact evaporator for maximising head and storage height below the evaporator and is suitable for the majority of standard commercial coldroom applications.

Cube

These low profile evaporators are ideal for small size cold and freezer rooms. You can use full size shelving to maximise your storage space.

Taper

These are for medium sized cold rooms for all applications with high and low humidity.

Boxer & Hyper

Large commercial, industrial and specialist application type evaporators with high air velocity for greater air throw distances with medium to low temperature and low to high humidity.

Energy-efficient Refrigeration Units

Presenting Trufrost Refrigeration Systems with temperatures ranging from -86°C to +22°C. These world-class Condensing units and Evaporator units are the perfect complement to your Coldroom Panels.

Salient Features :

- ◆ Rack systems with option of inverter compressor
- ◆ Original factory manufactured energy-efficient condensing unit for accurate performance
- ◆ Designed for tropicised conditions (Class T)
- ◆ Stainless steel or pre-painted aluminium evaporators
- ◆ Slim & Taper profile evaporators for space optimisation
- ◆ Silicon heater in drain help in quick installation and easy replacement
- ◆ Option of hermetic scroll & semi-hermetic compressors
- ◆ Option of remote monitoring for BMS compatible HACCP controller

Condensing Units

Trufrost offers a variety of condensing units. Their selection is based on cold room size and usage.

Air Cooled Semi-hermetic: these are generally for small to industrial applications, excessive pipe run or vertical lift distances and speciality blast chilling and freezing applications. They are highly efficient and perform tirelessly.

Water Cooled Semi-hermetic: these are similar to above and use water from cooling tower or chiller to further improve the efficiency.

Reciprocating Hermetic: for standard cold rooms with split type remote unit application. These are economical and easy to install.

Hermetic Scroll: for medium to larger rooms, longer horizontal pipe runs and speciality applications such as blast chilling and medium temperature application.

Air Cooled

Water Cooled

Hermetic Recip/Scroll

Basis of Design : (A) Loading will be 50 Kgs / Sq.ft. / day for Chiller room and 30 Kgs / Sq.ft. / day for Freezer room. (B) Door Openings : 3 to 5 / Hr. (C) Refrigerant : R22 / R407C / R404a / R134a for TH range and R-404a for TL range of equipment. (D) Supply Voltage : 200V - 240V for single phase while 400V - 440V for three-phase supply, otherwise use voltage stabiliser. (E) TH range offered for +22°C to +1°C is with Hermetic Danfoss / Emerson / Techemseh compressor, while TL range is offered for -1°C to -86°C with Hermetic Emerson for small capacities and Semi-Hermetic Bitzer / Dorin / Emerson compressors for higher capacities.

Trufrost reserves the right to change the specifications without prior notice

Ecostar Inverter refrigeration system

The new Bitzer Ecostar from Germany comes with inbuilt variable frequency inverter that can reduce your operating cost by up to 30%. This can operate between 25 to 87 Hz frequency and it is 'plug & play'. These are compact, top discharge units that can be kept next to wall, hence space saving. A single system can run upto 6 cold rooms or 4 freezer rooms and is ideal for hotels and warehousing.

Ecolite With capacity control

The Bitzer Ecolite air cooled CDUs from Germany are highly flexible, sustainable and easy to install. These plug & play machines come with smart Bitzer controller allowing simple implementation in the cooling system and constant monitoring of operating parameters and settings. A single system can run upto 6 cold rooms or 4 freezer rooms and is ideal for hotels and banqueting applications.

Bitzer Rack Systems

The Bitzer Multipac & Hyperpac, multi compressor rack system comes with the proven series of new Bitzer Ecoline Semi Hermetic compressors & Screw compressors. They are surprisingly compact, yet solidly built and are known for enhanced performance and reduced pipe work.

Varipac: Addition of an inverter in the rack enhances its efficiency and increases the life of the system.

Is food-waste disposal playing
on your mind?

MagicBox – an innovative on-site food waste solution

Marketed by Trufrost & Butler, the MagicBox simply mimics a natural digestion process and can decompose waste foods within 24 hours. Our engineers often compare the MagicBox food waste aerobic biodigesters to steel stomachs. These machines can easily handle anything that a human can eat such as bread, pasta, fruits, vegetables, and other items commonly seen in the food group.

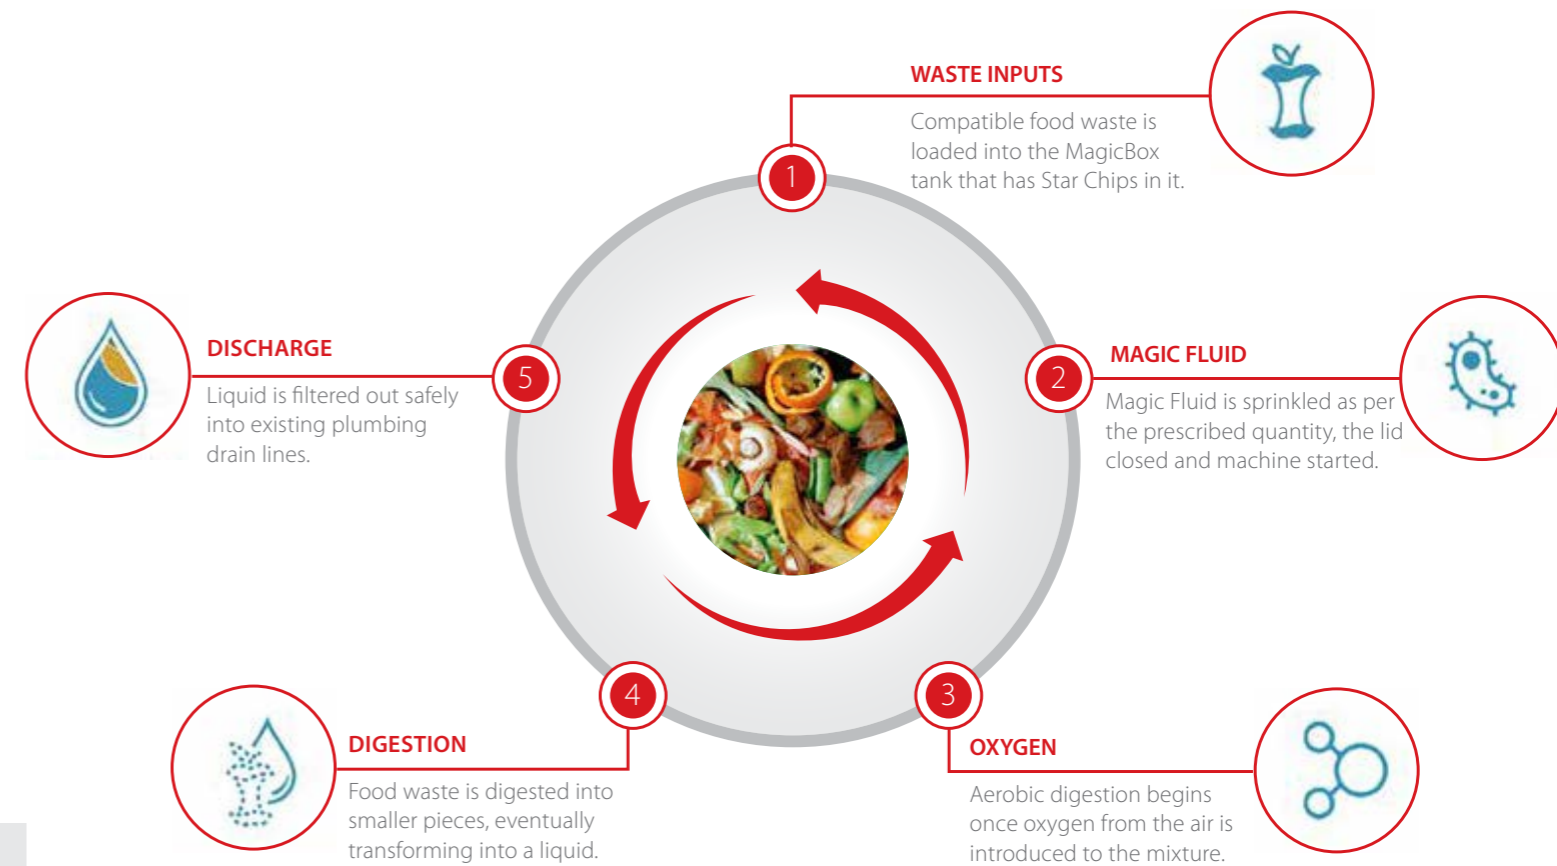

Key Features

- ◆ Low cost, on-site food waste disposal
- ◆ State-of-the-art technology
- ◆ Carbon footprint reduction
- ◆ Interior-Exterior in SS 304
- ◆ Quiet, clean & odour free
- ◆ Eliminates the spread of bacteria such as salmonella or legionella
- ◆ Simple to operate
- ◆ Minimum power consumption; reduced running costs

How does the MagicBox work?

The Magic Box is designed, manufactured and installed using cutting edge technology in the food waste recycling industry. When food waste enters the MagicBox biodigester, it begins to disappear in just a few hours. This seemingly magical process is actually the work of our MagicFluid and Star Chips. As this special mixture combines together to feast on the food waste, grey water is created as a by-product. This grey water can be safely discharged into the sewage system, creating a circular environmental economy.

Being an aerobic digester, MagicBox can be installed in virtually any commercial food preparation establishment and is designed to create a waste product that is decomposed enough to be discharged directly into the wastewater system. The filtered grey water can even be used for irrigation. It is a hyperlocal alternative to the traditional truck and bin collection system. We deliver significant savings because we eliminate haulage from the process while significantly reducing the harmful emissions that come with truck traffic.

WBC1-120

WBC2-120

WBC1-240

WBC2-240

Features

- ◆ HC free refrigerant and foam
- ◆ Electronic thermostat and digital LED temperature display for accurate control and easy reading
- ◆ Auto defrosting and auto evaporation of condensation water
- ◆ Insulation 40 mm thickness
- ◆ Self-closing door
- ◆ Magnetic gasket can be replaced without any tools
- ◆ Designed to accommodate 120 litre or 240 litre dustbin
- ◆ EXT.& INT. SS304
- ◆ Built-in unit for WBC1-120 WBC2-120, monoblock unit for WBC1-240 WBC2-240

Manufacturing & Quality

From advanced technology to diligent quality control, these are the top 7 reasons that make a Trufrost or Butler product a smart choice.

#1. Advanced Technology

Our products are manufactured in the most advanced factories located across the world, many of them highly automated and robotized. While energy efficiency has always been integral to our design process, we continue to bring out new technologies that further improve our systems to be the most efficient in the industry.

#3. Scale

Manufacturing facilities focused on 'scale' allow our factories to invest in advanced technology as well as Research & Development. This, in turn, enables us to remain at the forefront of the technology game and bring cutting edge products to our markets.

#2. Production Lines

Trufrost and Butler products are produced on some of the most automated and well laid out production and assembly lines. Well trained workforce, use of advanced technology and in-process quality control ensure that the final product is cream of the crop.

#4. Quality

Every Trufrost & Butler product complies to the highest standards of quality and consistency. Dedicated testing facilities and laboratories allow us to deliver innovative and cutting edge technologies to the market. Each of our products come with one or more global certifications such as CE, UL, NSF, CCC, CB, ROHS, OHSAS, ETL, ISO 9001, ISO 13485 and ISO 14001 amongst others.
